

## THE IPT DIFFERENCE

### EXPERTISE

Committed to professional development, Indiana Physical Therapy has the largest number of Certified Orthopedic Manual Therapists (COMT) in the nation.

### FOCUS

Indiana Physical Therapy provides hands-on individualized treatment to get you better faster.

### QUALITY

Focus On Therapeutic Outcomes (FOTO), a 3rd-party outcomes management system, enables Indiana Physical Therapy to monitor and improve clinical results and patient satisfaction.

### SUPPORT

The Indiana Physical Therapy team completes timely pre-authorizations, insurance verifications, and scheduling. Our therapists' seamless communication and regular updates ensure continuity of care.

### ACCESS

Indiana Physical Therapy guarantees an appointment within 24-hours, is open 7AM to 7PM, and accepts all insurance.

# OUR STORY

Indiana Physical Therapy, owned by three physical therapists, was established as an outpatient clinic in Bluffton, Indiana, in 1988. The owners recognized a need for high-quality outpatient rehab and expanded into the surrounding communities. Since then, IPT has grown to include more than twenty locations throughout Indiana, on-site athletic training, a sports performance program, and industrial site services. In addition to commitment to quality care, IPT is an active leader in the local communities. For over 30 years, IPT continues to remain privately owned, providing individualized care and maintaining the values upon which the company was founded.

*We ♥ what we do  
and it shows!*
